OIL & GAZ

EN590

BS EN590 STANDARD FOR DIESEL FUEL

EN590 describes the physical properties that all automotive diesel fuel must meet if it is to be sold in the UK, the rest of the European Union, Croatia, Iceland, Norway and Switzerland.

JET A1

JET A-1 is a kerosene-type fuel. It is compatible with most jet aircraft, both civil and military, helicopter turbine engines, turboprops and compression-ignition piston engines.

This fuel is of sufficient quality to meet strict international standards, such as the latest issues to date of the British standard DEF STAN 91-091, the American standard ASTM D1655 and NATO's F-35 specification.

OIL & GAZ

D2 DIESEL

D2 is a refinery abbreviation for Gasoil. It is the second distillate from the crude oil, and can be used without reformers and additives. So, the first engines used D2 as fuel – before petrol cars as we know them today was invented. That is because the engine invented by a German called Diesel, requires no spark plugs.

D6 DIESEL

D6 Diesel is also known as Residual Fuel Oil / Bunker Fuel Oil , Bunker Oil and is of high-viscosity. This particular fuel oil requires preheating to 220 – 260 Degrees Fahrenheit. D6 is mostly used for generators.

D6 is a type of residual fuel, mainly used in power plants and larger ships. The fuel requires to be preheated before it can be used. It is not possible to use it in smaller engines or vessels/vehicles where it is not possible to pre-heat it.

CONSTRUCTION MATERIALS

CEMENT

Ordinary Portland CEMENT Specification Grade 42,5 N/R

REEBAR

Diameter 6 to 42 mm in coils and Bar length: 6 to 14 m Grade 40 and 60

FOOD MATERIALS

SUGAR

ICUMSA 45 Sugar - Brazil today is the largest producer of sugarcane in the world, in addition being responsible for 48% of world exports of this commodity. The term ICUMSA is an acronym called the International Commission for Uniform Methods of Sugar Analysis, or the International Commission for Uniform Methods of Sugar Analysis in free translation.

CORN & SUNFLOWER OIL

Corn oil, edible oil obtainable from the seeds (kernels) of corn (maize), valued for its bland flavour and light colour.

Healthy, natural sunflower oil is produced from oil type sunflower seeds. Sunflower oil is light in taste and appearance and supplies more Vitamin E than any other vegetable oil.

OTHER MATERIALS

COPPER CATHODE

PRODUCT: COPPER CATHODES (ELECTROLYTIC GRADE "A")MIN
(ELECTROLYTIC GRADE A) CU-PURITY:99.97% UP TO 99.99%
WEIGHT OF EACH SHEET: 125 KG (+/-1%).
NET WEIGHT OF EACH PALLET 2MTS (+/-1%).
PALLETIZED BANDED BY ALUMINUM BANDS.

USED RAIL SCRAP

ALL USED RAILS R50 & R65 CUT TO 1(ONE) METER OR 1.4 METER (ONE
METER AND FORTY CENTIMETERS) LENGTH MAXIMUM.
